

SILENO

Robotic Lawnmowers

 **GARDENA**[®]

[GARDENA.com](https://www.gardena.com)

THE INTELLIGENT Robotic Lawnmower. SILENO.

GARDENA's range of new generation SILENO Robotic Lawnmowers are the understated heroes in modern-day lawn maintenance, because let's be honest, keeping even the smallest of lawns tidy can take a lot of time and effort.

SILENO Robotic Lawnmowers make lawn-care easy, allowing you to spend more time doing other things - IN or OUT of the garden.

- **Easy installation - with access to online instruction videos.**
- **Easy to program - via the Bluetooth® App, with step-by-step guidance.**
- **Easy on the ears - whisper quiet.**
- **Easy maintenance - hose washable.**

Want to know more?
We dispel the six biggest MYTHS
surrounding Robotic Lawnmowers:

 Watch

Mowing with the mowing masters.

SILENO Robotic Lawnmowers | Developed from more than 20 years of experience

CONNECTED

Simply pick up your smartphone, and download the GARDENA Bluetooth® App, to easily set up and control your SILENO Robotic Lawnmower, within a range of 10m.

PRECISE

The SILENO is a better navigator. It tackles the narrowest of spaces and tightest corners with reliable precision.

QUIET

Operates at no more than 58 dB(A). Mow any time, day or night, without disturbing the neighbours.

ALL WEATHER & TERRAIN

Rain or shine, up or down slopes (up to 35% (19°) for City 250 and Life 750, and 25% (14°) for minimo 250 and minimo 500), SILENO gets the job done!

Easy set-up.

SILENO Robotic Lawnmowers | Easy to install and programme

EASY TO INSTALL

Installation is straightforward. An easy to follow programming assistant guides you through the menu and self-calculates the mowing plan. The mowing times can also be freely programmed to suit your own schedule and preferences.

EASY TO USE

With simple menu navigation and a set-up assistant, SILENO is designed for straightforward DIY installation, programming and operation, including via the GARDENA Bluetooth® App.

EXACT

Proven technology delivers precise results. Thanks to the GARDENA boundary wire, SILENO knows where to mow – down to the centimetre. Accurate, reliable and flexible.

GUIDING

Thanks to the boundary wire, SILENO navigates reliably through mapped lawn areas - and back to the charging station via the guide wire.

Live and let mow.

SILENO Robotic Lawnmowers | Reliable Features

INDEPENDENT

Totally autonomous mowing and charging. When charging is required, SILENO automatically returns itself to the charging station.

FLEXIBLE PLACEMENT OF THE CHARGING STATION

Even in narrow sections and outside of the mowing area.

UNCOMPLICATED

Cleaning SILENO is easy - just wash out the underside of the housing with your garden hose.

EASY TO CLEAN

SILENO Robotic Lawnmowers have been constructed so that a simple spray with the garden hose frees housing, blades, and wheels, of dirt, dust and residual grass. Electronics are protected from water.

AGILE

SILENO manages even narrow corridors and tight passageways in your mowing area without a problem.

INDUSTRIOUS

Handles secondary areas with ease. Transport SILENO to the designated secondary area, press the 'mode' button, select 'secondary area', select 'start'. Return the Robotic Lawnmower to the charger when finished.

COLLISION SENSOR

A highly sensitive collision sensor ensures obstacles are recognised and circumnavigated.

LIFT SENSOR

If the Robotic Lawnmower is lifted the blades stop immediately - preventing injury.

CORRIDOR CUT

Mowing difficult or narrow passages of 60cm - 1.5m in width is no problem, thanks to the CorridorCut function. SILENO moves in a special mowing pattern, efficiently covering the width of the passage. When SILENO reaches the end of the narrow passage it continues on to cut the remaining lawn areas.

FROST SENSOR

Grass is extremely sensitive when covered with frost. This function does not allow the grass to be cut if temperatures are below 5°C. The mowing schedule is suspended to protect the lawn, as mowing damages the grass when it is frozen.

SPOT CUTTING

A spiral mowing function allows SILENO to efficiently mow hard-to-reach areas such as under trampolines or garden furniture. SILENO is manually moved to the chosen area and the function is activated manually.

SENSOR CONTROL

The SensorControl function automatically adjusts the mowing duration to the growth of the grass. The intelligent cutting system can be set to three frequency levels; low, mid, or high. The higher the frequency, the more sensitive SILENO is to grass growth.

SUSTAINABLE

SILENO cuts gently and evenly taking millimetres at each cut. The fine-cut grass tips are returned to the lawn as a natural fertiliser and maintain the lawn right down to the root area.

SENSORCUT SYSTEM

SILENO travels and cuts in a random pattern, reaching every corner of the garden. 3 x polished, precision-ground blades cut grass evenly and cleanly from all directions - providing a close cut, with a beautiful, stripe-free finish.

FLEXIBLE

How much should be cut? The cutting height can be adjusted by simply turning the dial for City 250 and Life 750 models. Minimo 250 and 500 have manual height adjustment.

EVERYTHING INCLUDED

In the box with your new SILENO robotic lawnmower and Charging Station are the Boundary Wire, Pegs, Couplers and Connectors you need to get SILENO installed on your lawn. All included at no extra cost.

GARDENA Bluetooth® App

When it comes to home appliances, connectivity has become a standard and an expectation. Following this trend, GARDENA have developed the GARDENA Bluetooth® App.

Compatible with the SILENO range of Robotic Lawnmowers, the app places control of your lawn care in the palm of your hand.

Set and forget your Robotic Lawnmower so you can spend more time doing other things - IN or OUT of the garden.

All programming options and additional settings are conveniently at hand with the GARDENA Bluetooth® App.

For SILENO City and Life models, programmes and settings can also be managed via the control panel directly on the mower.

Explore the features of the GARDENA Bluetooth® App

Control from up to 10 m

Simply pick up your smartphone, and download the GARDENA Bluetooth® App, to easily set up and control your SILENO Robotic Lawnmower, within a range of 10m.

Bluetooth® Connection

Pick up your smartphone, open the GARDENA Bluetooth® App and you're ready to go with zero fuss.

Easy configuration

The GARDENA Bluetooth® App provides step-by-step guidance for setting up and configuring your Bluetooth® device.

Easy scheduling

The GARDENA Bluetooth® App has an integrated scheduling assistant that will suggest optimal mowing schedules, based on the users response to quick and simple questions.

SILENO Minimo 250

For **small** lawn areas up to **250m²**

For lawn areas up to 250m², SILENO Minimo 250 offers GARDENA Bluetooth® App control from your smartphone or device within a 10m radius. Features EasyApp Control, Auto Schedule and EasyConfig for straightforward installation and use. Minimo 250 mows autonomously - reliably, evenly and quietly, to keep lawns looking their well-maintained best in all weather. So you can spend more of your free time doing what you love.

▶ Watch

SILENO Minimo 500

For **small-medium** lawn areas up to **500m²**

For lawn areas up to 500m², SILENO Minimo 500 offers GARDENA Bluetooth® App control from your smartphone or device within a 10m radius. Features EasyApp Control, Auto Schedule and EasyConfig for straightforward installation and use. Minimo 500 mows autonomously - reliably, evenly and quietly, to keep lawns looking their well-maintained best in all weather. So you can spend more of your free time doing what you love.

CORRIDOR CUT

Mows difficult, or narrow passages, and dead-ends from 60cm.

SECURITY SETTING

PIN code.

CUTTING CAPACITY

up to **250m²**

QUIET MOWER

Only 57 dB(A) guaranteed.

EASY TO CLEAN

Simply spray with the garden hose. Electronics are protected from water.

TERRAIN ADAPTATION

The oscillating integrated rear wheel (x1) makes the Robotic Lawnmower particularly manoeuvrable.

SENSOR CONTROL

Adjusts the mowing frequency to the grass growth.

SET MOWING TIMES USING THE SET-UP ASSISTANT

Enter your lawn size and preferred mowing times, and it automatically calculates and generates the schedule.

SPOT CUTTING

Targeted, spiral mowing, for hard-to-reach areas such as under the trampoline.

FLEXIBLE PLACEMENT OF THE CHARGING STATION

Even in narrow sections and outside of the mowing area.

Connect via the GARDENA Bluetooth® app. For local connection up to 10m.

SILENO City 250

For **small** areas up to **250 m²**

For small lawn areas up to 250m², the SILENO City 250 mows reliably, evenly, quietly, and without human intervention. Running on a Li-Ion battery, the Robotic Lawnmower remains within its designated mowing area - determined by the boundary wire, and automatically returns to its charging station when required - thanks to the guide wire.

▶ Watch

SILENO Life 750

For **medium** areas up to **750 m²**

For medium lawn areas up to 750m², the SILENO Life 750 mows reliably, evenly, quietly, and without human intervention. Running on a Li-Ion battery, the Robotic Lawnmower remains within its designated mowing area - determined by the boundary wire and automatically returns to its charging station when required - thanks to the guide wire.

Frequently Asked Questions

Got questions?

Find the answers at the online Robotic Lawnmower Support Centre.

Installation Videos

Here's how

It is easy to install a GARDENA Robotic Lawnmower. Our installation videos give you step-by-step instructions on how it's done.

Operator's Manuals

Know more

Has your operator manual disappeared? Visit the Robotic Lawnmower Support Centre and download a copy.

Product Registration

For additional services

Be sure to register your Robotic Lawnmower on-line. It only takes a few minutes and will unlock some great additional benefits. Register your Robotic Lawnmower online within three months of purchase, and extend your two-year warranty by one year, to a total warranty period of three years.

Software Updates

Update to the latest operating software

Unlock new functions and optimisations. To activate some features mentioned in this brochure, your SILENO Robotic Lawnmower may require a free software update.
